

Day 2

Q.1

```
print("=====")
print("STUDENT CARD")
print("Name : Rahul")
print("Age : 20")
print("City : Kolhapur")
print("Course: AI & ML")
```

```
=====
STUDENT CARD
Name : Rahul
Age : 20
City : Kolhapur
Course: AI & ML

Process finished with exit code 0
```

Q.2

```
print("-----")
print("COLLEGE ID")
print("-----")
print("Name : Ram kamble")
print("Roll_no : 10")
print("Department : Comuter Engineer")
print("-----")
```

```
-----
COLLEGE ID
-----
Name : Ram kamb1e
Roll_no : 10
Department : Comuter Engineer
-----
```

Q.3

```
print("Dream Company : GOOGLE")
print("Position : AI Engineer")
print("Location : India")
print("Salary Goal : 20 LPA")
```

```
Dream Company : GOOGLE
Position : AI Engineer
Location : India
Salary Goal : 20 LPA

Process finished with exit code 0
```

Q.4

```
print("#####")
print("LEARN PYTHON TODAY")
print("Beginner Friendly Course")
print("AI & ML Ready")
print()
print()
print()
print("Join Now!")
print("#####")
```

```
#####
LEARN PYTHON TODAY
Beginner Friendly Course
AI & ML Ready

Join Now!
#####
```

Q.5

```
print("AI & ML COURES")
print()
print("Modules:")
print("  1.Python")
print("  2.Data Science")
print("  3.Machine Learning")
print("  4.Deep Learning")
print("  5.Generative AI")
```

```
AI & ML COURES

Modules:
  1.Python
  2.Data Science
  3.Machine Learning
  4.Deep Learning
  5.Generative AI
```

Q.6

```
print("=====")
print("WELCOME TO PYTHON LAB")
print("Trainer: _____")
print("Batch:_____")
print("Date:_____")
```

```
=====
WELCOME TO PYTHON LAB
Trainer: _____
Batch:_____
Date:_____

Process finished with exit code 0
```

Q.7

```
print("MONDAY : Python")
print("TUESDAY : AI BAsic")
print("WEDNESDAY : Data Science")
print("THURSDAY : Machine Learning")
print("FRIENDSDAY : Project Work")
```

```
MONDAY : Python
TUESDAY : AI BAsic
WEDNESDAY : Data Science
THURSDAY : Machine Learning
FRIENDSDAY : Project Work

Process finished with exit code 0
```

Q.8

```
print("AI CAREER ROADMAP")
print("START")
print("|")
print("Python")
print("|")
print("Data Science")
print("|")
print("Machine Learning")
print("|")
print("Deep Learning")
print("|")
print("AI Engineer")
```

```
AI CAREER ROADMAP
START
|
Python
|
Data Science
|
Machine Learning
|
Deep Learning
|
AI Engineer
```

Q.9

```
print("Company Technology")
print(" ")
print("Google Python")
print("Netflix Python")
print("Instagram Python")
print("Spotify Python")
```

```
Company Technology
```

```
Google Python
```

```
Netflix Python
```

```
Instagram Python
```

```
Spotify Python
```

```
Process finished with exit code 0
```

Q.10

```
print("=====")
print("MOVIE TICKET")
print(" ")
print("Movie :_____")
print("Seat :_____")
print("Time :_____")
```

```
=====
```

```
MOVIE TICKET
```

```
Movie :_____
```

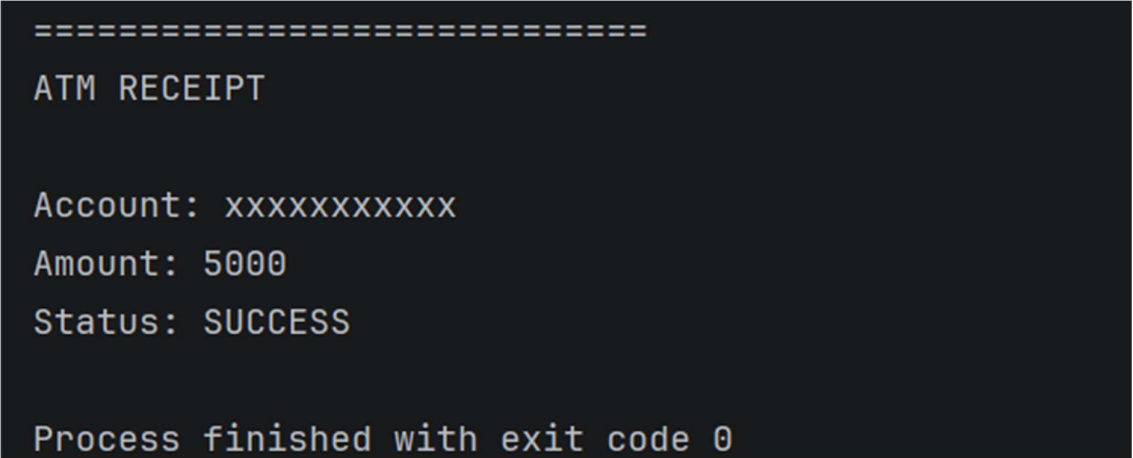

```
Seat :_____
```

```
Time :_____
```

```
Process finished with exit code 0
```

Q.11

```
print("=====")
print("ATM RECEIPT")
print(" ")
print("Account: xxxxxxxxxx")
print("Amount: 5000")
print("Status: SUCCESS")
```

A screenshot of a terminal window with a dark background. The output of the Python code is displayed in a light gray monospace font. It starts with a line of ten equals signs, followed by the text 'ATM RECEIPT' on a new line. After another blank line, it shows 'Account: xxxxxxxxxx', 'Amount: 5000', and 'Status: SUCCESS' on separate lines. At the bottom, it says 'Process finished with exit code 0'.

```
=====  
ATM RECEIPT  
  
Account: xxxxxxxxxx  
Amount: 5000  
Status: SUCCESS  
  
Process finished with exit code 0
```

Q.12

```
print("Resume Header")  
  
print("      ")  
  
print("=====")  
  
print("Name : _____")  
  
print("Email : _____")  
  
print("Phone Number : _____")  
  
print("Skills : ")  
  
print("    * Python")  
  
print("    * AI")  
  
print("    * ML")  
  
print("=====")
```

Resume Header

=====

Name : _____

Email : _____

Phone Number : _____

Skills :

* Python

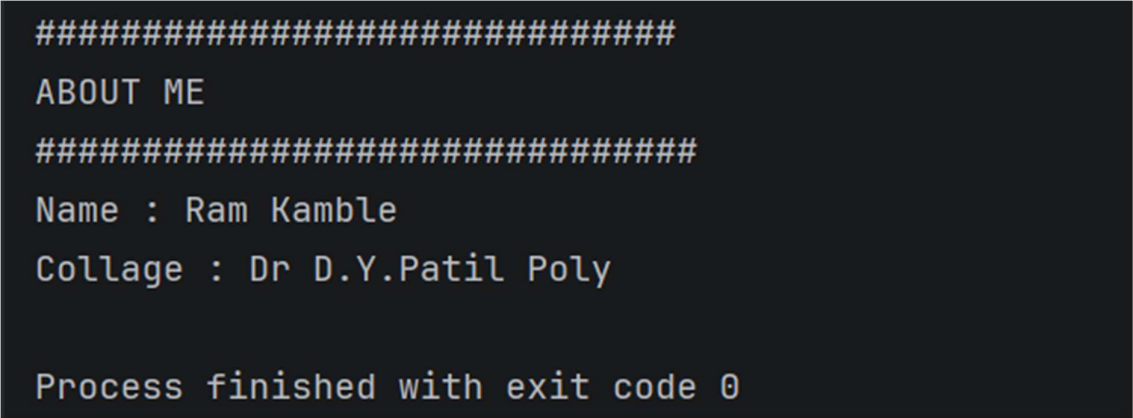

* AI

* ML

=====

Q.13

```
print("#####")
print("ABOUT ME")
print("#####")
print("Name : Ram Kamble")
print("Collage : Dr D.Y.Patil Poly")
```

A screenshot of a terminal window with a dark background. The output of the Python code is displayed in a light green monospaced font. It shows a line of 20 hash characters, followed by the text 'ABOUT ME', another line of 20 hash characters, the text 'Name : Ram Kamble', the text 'Collage : Dr D.Y.Patil Poly', and finally 'Process finished with exit code 0' at the bottom.

```
#####
ABOUT ME
#####
Name : Ram Kamble
Collage : Dr D.Y.Patil Poly

Process finished with exit code 0
```
